The Department processed six thousand two hundred fifty one (5,373) work orders in the year 2011. Of these work orders the drainage, pump maintenance, and road crews completed six thousand two hundred twenty two (5,326) work requests. This is a ninety-nine point one percent (99.1%) completion rate. The Department continues to follow up on all open work orders to either re-issue or cancel the order due to circumstances not allowing completion.

The Department issued thirteen (13) culvert permits for property access.

Further, the Department's engineering staff processed and approved twenty seven (27) commercial developments and zero residential subdivisions. All were reviewed in accordance with St. Charles Parish Code for compliance.
